

# EduSwift - TimeTable System

# EduSwift - TimeTable System

- ? Are you pressed down with the tedious, time-consuming task of scheduling your school timetable?
- ? Do you feel wedged in regular chores like teachers record management, substitution management and report generation?
- ? Is the problem of multiple shifts playing havoc in your timetabling effort?
- ? Have you ever felt like escaping from generating varied school timetable views?
- ? Are you hunting for timetable software that can help you in resource optimization and satisfy your timetabling needs flawlessly, while taking care of dynamic needs and availability of resources?

Your one-stop solution to all timetable-related problems is  
**EduSwift - TimeTable System.**

The screenshot displays the EduSwift Time Table Management System interface. At the top, there is a navigation bar with icons for Home, Master Data, Time Table, Reports, Import / Export, and User Management. A welcome message for 'admin' is visible on the right. Below the navigation bar, there are tabs for 'View Time Table' and 'Campus Time Table View'. The main area shows a grid of classes (Forms/Divisions) across days (Monday to Thursday) and periods (1 to 7). Each cell in the grid contains a colored box representing a subject. Below the grid, there are sections for 'Non allocated Rules', 'Reason', and 'Subject Information'. At the bottom, there are buttons for 'Generate PDF', 'Export', 'Save', and 'Verify / Update'. The footer includes 'Copyright © Eagart MicroWeb 2008' and 'Evaluation Version'.

## ABOUT EduSwift - TimeTable System

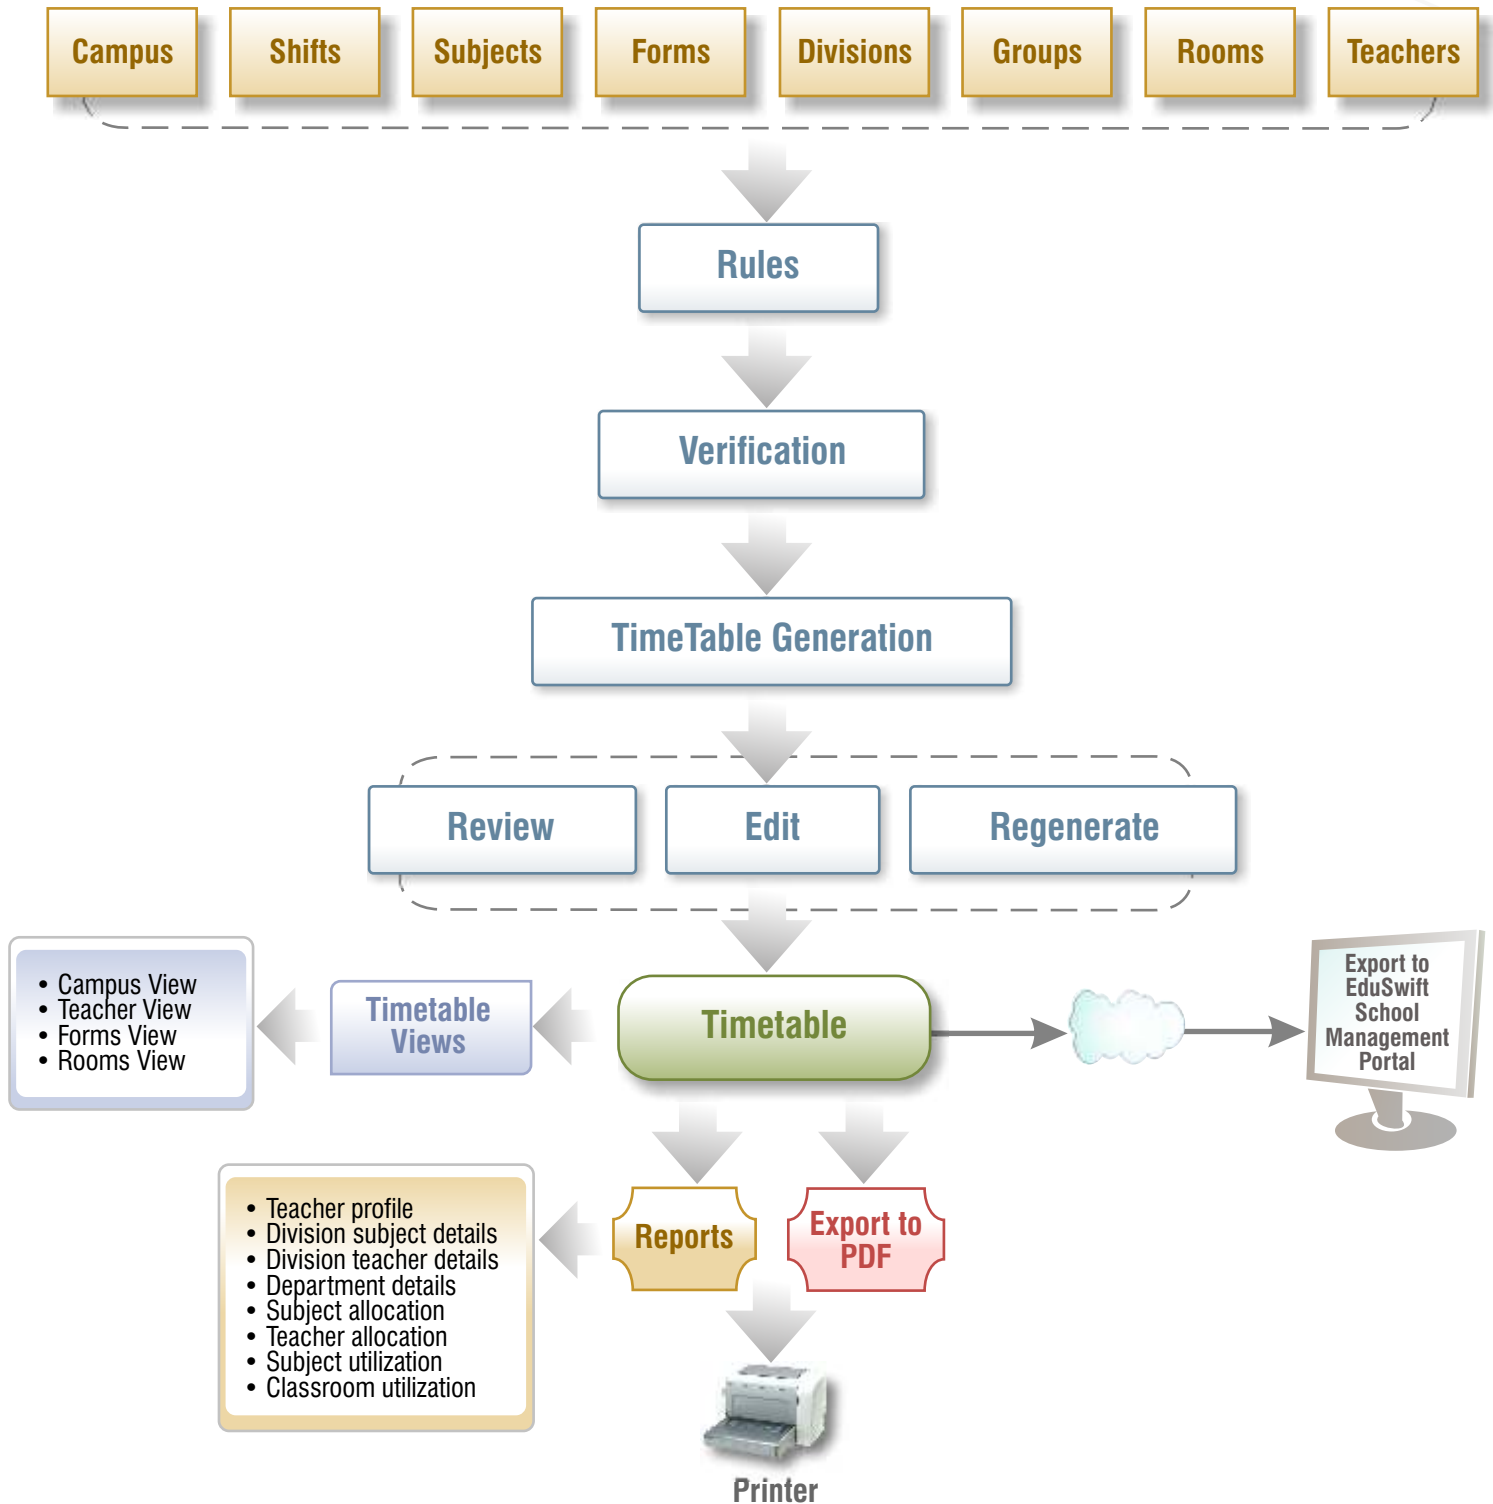

**EduSwift - TimeTable System helps you generate perfect timetable in minutes, ensuring best utilization and optimization of resources across your school.**

Built using latest technology and powered with unique features, EduSwift - Time Table System is the most user-friendly timetable software that allows you to **Generate, Manage** and **Publish** timetable in minimum time, while intelligently suggesting you best alternatives as your Help Agent for error-free and clash-free timetable. A highly configurable tool, it gives you unsurpassable flexibility and provides you scope to create your desired timetable, considering all your school's needs, be it human and physical resource availability or rules applicable in various classes. Apart from English, this multilingual tool is available in several versions, including Thai, Indonesian, Malaysian, Arabic and Spanish.

## HOW IT WORKS – Quick 5 Steps

## TIMETABLE GENERATION PROCESS

# EduSwift - TimeTable System

EduSwift - TimeTable System is a complete timetable solution that automatically

- ▶ Generates timetable with least effort and time
- ▶ Allows you to easily manage your school schedule in keeping with changing demands and resource availability
- ▶ Lets you print timetable and various school reports.

The screenshot displays the EduSwift TimeTable Management System interface. The main menu includes Home, Master Data, Time Table, Reports, Import / Export, and User Management. The 'Reports' menu is expanded, showing options like Teacher Profile, Department Details, Division Details, Division Student Details, Subject Allocation, Teacher Allocation, Teacher Utilization (highlighted with a red box), and Room Utilization. A red arrow points from the 'Teacher Utilization' menu item to a 'Buy Online' button. Below the main menu, there are icons for Help and Export. The 'Teacher Utilization' report window is open, showing a list of teachers on the left and a table of utilization data on the right. The table includes columns for Teacher, Available, Unavailable, Total, Total Allocated, and Utilization. The report is for ABC School, Active Timetable, Academic Year 2008-2009, and is dated 13-Jan-2009. The footer of the report window shows 'Current Page No.: 1', 'Total Page No.: 1+', 'Zoom Factor: 100%', and 'Evaluation Version'.

Teacher	Available	Unavailable	Total	Total Allocated	Utilization
Binny Den	40	0	40	28	70.00
